

## Zip Wire

### Further information

- Access to the zip wire requires walking from the main site and up the hill at our Bubbs hill site, this is accessed via the Green Dragon car park.
- Please allow 20mins to walk from the main-site, your hour session will start at the designated time, if you are late to the activity you may not get a full hour.
- Vehicles are not allowed at the top of hill unless discussed prior to your visit with the Centre manager.
- The activity is suitable for all ages, however if the participant is particularly small and does not fit the harnesses then they will not be able to participant.
- Max weight limit is 18 stone, 114kg
- Minimum of 2 leaders are required for this activity, at least one of which will need to be happy to unclip individuals from the bottom of the zip wire (full instruction will be given).
- Steps need to be climbed to access the platform so currently we are unable to offer this activity to those who are unable to walk (we are looking at options for the future).
- Group size is 12 participants per instructor per hour, larger numbers can be accommodated by either a second instructor (if available) or by booking consecutive sessions.
- Hour long session includes the fitting of harnesses and helmets.
